A-08 · EXPLODED SYSTEMS

Exploded systems

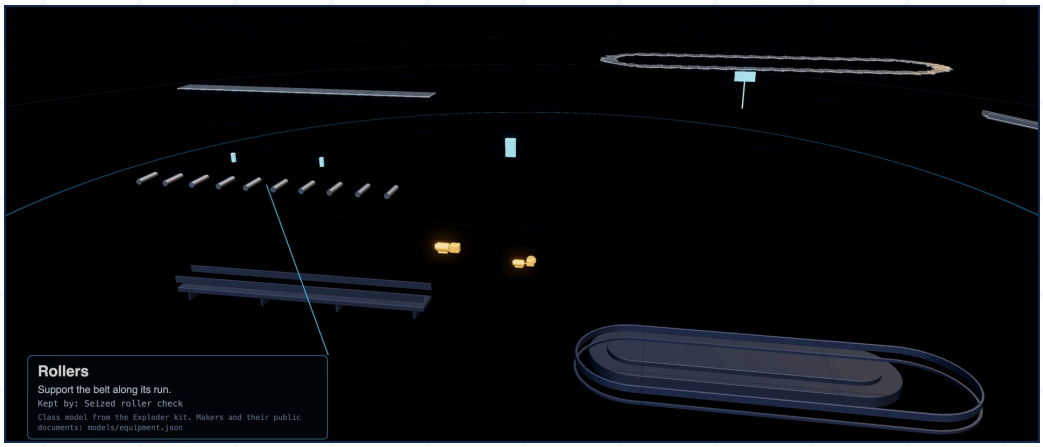

Building systems lifted apart, each part named from the kit model.

COOLING PLANT: CHILLER AND AIR HANDLER

The cooling plant lifted apart: the chiller and the air handler. The frame names each part and says how it is kept and what is measured.

BAGGAGE: BELT CONVEYOR AND CLAIM CAROUSEL

The baggage system lifted apart: the belt conveyor and the claim carousel, each part named the same way.

The frames mark each part as a class model from the Exploder kit.
